+91 8618545293 | manjunathgk146@gmail.com | LinkedIn | GitHub | LeetCode | GFG

Education

UBDT College of Engineering, Davanagere (VTU)

B.E. in Computer Science and Engineering

Aug 2023 – May 2027

CGPA: 8.8 / 10.0

Anubhavamantapa PU College

Science Stream – PCMB

2021 – 2023

92%

Experience

Infosys Springboard

Nov 2025 – Jan 2026

Software Engineering Intern – Java Technology Stack

Davanagere, India

- Built scalable backend services using **Java** and **Spring Boot** in an Agile environment, contributing to the continuous improvement of platform capabilities and data pipelines.
- Participated in code reviews, maintained technical documentation, and collaborated with distributed teams following established **Agile/Scrum** development lifecycles.
- Troubleshooted, debugged, and resolved software defects to support application performance optimization and highly available production environments.

Projects

Real-Time Log Monitoring System *Java, Spring Boot, Docker, Kubernetes, WebSockets* [GitHub](#)

- Built a scalable backend log ingestion system using **Spring Boot REST APIs**, implementing automatic **PII masking** to support secure operations and client-facing services.
- Monitored application health via **WebSocket real-time streaming** to a live dashboard, aiding in rapid troubleshooting, system maintenance, and anomaly detection.
- Supported deployment processes by containerizing with **Docker** and **Kubernetes** in a **CI/CD pipeline**, ensuring the reliability and availability of software systems.

CarbonLite – Full-Stack Web Application *Java, Spring Boot, React.js, MySQL, Tailwind CSS* [GitHub](#)

- Developed scalable software solutions for a full-stack web application using **Spring Boot** backend and **React.js** frontend, driving user engagement and operational efficiency.
- Designed **MySQL** schemas with **Hibernate ORM** and built REST APIs to support data-driven initiatives, complex integrations, and continuous platform enhancements.
- Utilized **Git version control** within collaborative project planning phases to maintain clean, efficient, and well-documented technical resources across Agile sprints.

FileGuard X – Cloud File Integrity System *Python, Flask, AWS EC2, S3, DynamoDB* [GitHub](#)

- Supported cloud infrastructure by deploying on **AWS EC2**, allowing files to upload via **Flask** web-based applications to **Amazon S3** for secure processing.
- Engineered cryptographic solutions using **SHA-256 fingerprints** stored in **DynamoDB** to troubleshoot, debug, and resolve byte-level tampering issues.
- Contributed to the security and availability of software systems utilizing **IAM credential management** and strict cloud storage isolation protocols.

Finance Backend – RBAC and Analytics API *Java, Spring Boot, Spring Data JPA, Swagger* [GitHub](#)

- Architected a secure internal system with **Role-Based Access Control** enforced via a custom **RoleValidator**, contributing to reliable system administration.
- Built API integrations using **Spring Data JPA** custom queries to compute analytics, documenting all REST endpoints via **Swagger/OpenAPI 3.0** for cross-functional use.
- Analyzed system scalability and resolved technical issues by optimizing database persistence layers, ensuring clean, maintainable solutions for financial operations.

Technical Skills

Languages: Java, Python, JavaScript (ES6+), SQL, C

Backend & Frameworks: Spring Boot, Spring Security, Spring Data JPA, REST APIs, Microservices, Flask, Node.js

Frontend & Tools: React.js, Tailwind CSS, WebSockets, Postman, Swagger/OpenAPI

Cloud, DevOps & CI/CD: AWS (EC2, S3, DynamoDB), Docker, Kubernetes, Git, GitHub Actions, Maven

Databases: MySQL, PostgreSQL, H2, Redis (caching), SQL (schema design, JPA queries)

Practices: OOP, SOLID Principles, Design Patterns, Agile/Scrum, CI/CD pipelines, System Scalability

Achievements

Problem Solving: Solved **300+ DSA problems** on LeetCode & GFG, developing strong analytical and troubleshooting skills.

Certifications: Java Foundation · Programming in Java · DSA using Java · DBMS (NPTEL / Infosys Springboard).

Professional: Completed **TCS iON Young Professional Program** – Agile communication and cross-functional collaboration.
